# TRANSACTIONAL EMAIL

FUNCTIONALITY <sup>(1)</sup>	ESSENTIAL	ADVANCED	PREMIUM
<b>Included monthly sending volume</b> (# of emails)	250,000		
<b>Processing capacity per hour <sup>(1)</sup></b> (# of emails)	2,500		
<b>Multi Datacenter Connection</b>	X	X	X
<b>Access Tokens <sup>(2)</sup></b>	X	X	X
<b>Open &amp; Link Tracking</b>	X	X	X
<b>Templating</b>	X	X	X
<b>Push Notification Service</b> (API Webhook)	X	X	X
<b>EAS Portal</b>		X	X
<b>Live Monitoring &amp; Live Search</b>		X	X
<b>CSV Report</b>		X	X
<b>Spam Score Check</b>		X	X
<b>Outbound AntiVirus Multiscan(2x)</b>			X
<b>Secure Document Handling</b>			X
<b>Bounce and Response Manager</b> Incl. Inbound AntiVirus MultiScan (2x)		(X)	(X)
<b>Dedicated IP Bundle</b> (High Availability)	(X)	(X)	(X)

(1) The calculation basis for processing capacities is derived from the base configuration of Transactional Email. The measurement is assuming an email size of 200 kilobytes and takes into account open and link tracking for a period of one hour. Due to possible transmission peaks, the actual processing capacity may be 1.25 times the agreed processing capacity.

(2) 5 Access Tokens are included in initial Partner Setup. Additional tokens are charged according to "Setup Fees".
