

Retarus Cloud Fax For Your EHR

Native Integration and Open APIs
Available

Familiar UI

Send faxes within Your EHR –
no separate software to learn.

Data Privacy

Secure, HIPAA compliant,
encrypted fax processing.

Enterprise-Grade

The performance, reliability, &
features that enterprises need.

How Organizations Benefit From Cloud Fax

Retarus Cloud Fax provides reliable, secure faxing with additional operational and cost benefits.

- Digitized and fully cloudified document processes
- No more managing, troubleshooting and upgrading fax servers
- Highly scalable, flexible, and performant
- Usage-based billing instead of high CAPEX of own fax infrastructure
- Reliable uptime with fully redundant infrastructure
- Leading delivery rates through tech and active carrier management
- Detailed reporting and granular configuration options
- Always up-to-date security and compliance

Not All Fax Solutions Are Created Equal.

Retarus Cloud Fax is the best option for healthcare enterprises that demand the most in terms of performance, reliability, transparency, and overall quality for their critical communications.

"Excellent service, and nothing else was promised.
The service continues to be excellent ..."

Business Unit IT Lead, Healthcare

Gartner
Peer Insights™
