

Retarus Cloud Fax for SAP Solutions & SAP BTP

Seamlessly integrate Cloud Fax via SAP BTP Integration Suite

Native SAP Connector

Validated integration package, built on SAP BTP and Integration Suite

Future-Proof

Have a Cloud Fax solution ready when you migrate to SAP Cloud Solutions

Enterprise-Grade

The performance, reliability, & features that enterprises need.

How You Benefit from Cloud Fax for SAP Solutions

Leverage Cloud Fax built for enterprises in combination with a native SAP Connector and pre-built integration flows.

- Move to SAP S/4HANA Cloud Public or Private Edition with SAP BTP without disrupting faxing
- Prepare for the 2027 end of maintenance of legacy SAP connector technologies
- Low-effort migration through pre-built integration package
- Minimize costs and efforts of large-scale rollouts with the reusable Connector
- Drive end-to-end document workflow automation in your SAP environment
- Rely on Cloud Fax with the scalability and performance enterprises need
- Avoid high CAPEX by switching to the pay-per-use model of cloud messaging
- Ensure business continuity with our high-availability Cloud Fax infrastructure
- Stay protected with always up-to-date security and compliance

Not All Fax Solutions Are Created Equal.

Retarus Cloud Fax is the best option for enterprises that demand the most in terms of performance, reliability, transparency, and overall quality for their critical communications.

“Through our long cooperation, we continue to be very satisfied with the service and performance of this service provider”

IT Services Associate, Banking
